

**Activity Kit
for Elementary and High School students
"Youth and Sexualization : Innovative approaches to intervention"**

This kit was designed to provide facilitators who work in youth education, community organizations and health and social services a variety of educational activities on the theme of sexualization and its impact on young people.

The activities contained in this kit address issues such as beauty and body image, stereotypes, as well as love, family and friendship relationships.

These activities can be used with coed or single-sex groups. They are designed for children of elementary school age (10 to 12) and high school age (12 to 17).

This kit is now available for **15 \$ each***.
